

RUN

Remember You Must Always Be Prepared to Run

Preparation to run must start the day you get married, the day you meet your boyfriend, the day you break up with your husband or boyfriend. You must always be prepared to run. This means you keep a savings account unbeknown to everyone and I mean unbeknown to everyone including your mother. You add money to this account every month. I don't care if it is one or two dollars. Money adds up. Do not have the bank statement come to the house. It is to remain forever hidden. I don't care how sweet your husband is or how considerate and nice your boyfriend is you must make one life saving assumption – you must assume your husband or boyfriend can change. Assuming that your husband or boyfriend can change can be a decision that may save your life. Men change all the time, for a new girlfriend or a better life without the wife or children. A man can change if you become pregnant. A man can change when he reaches the age of 50. A man can change if his business is failing. A man can change if he takes up with another woman. Knowing that men can change, you need to be prepared to run when they change. Assuming that the man in your life can change should cause you to change now and plan for your safety and the safety of your children. When men change they will kill the wife and the children for the new life they believe is before them. Besides why shouldn't they cash in your insurance policy.

Keep your car in working order I don't care if you have to stop eating. Keep your car in working order. Keep clothing rolled up in your trunk for you and your children. Ask someone that has been in the military they can tell you how to roll clothes for storage. Keep snacks in the trunk two large flash lights and batteries and four blankets. These items can be camouflaged. No one will know what they are. Think, you will need birth certificates, school records- he can track you if you use his medical insurance or you pay your bills using your new address. Instruct your children to say nothing while living in a shelter. Play the game called amnesia. You were never married. You are not quite certain the name of your children's fathers. You have no siblings. Your parents are dead. You are sickly and you have no friends and your memory is poor. You don't remember the name of your high school. You were never married. Your children are the result of a one night stand therefore you do not remember the name of the men you slept with after leaving the bar. Remember when men change the wife is in the way of their happiness.

You need to find organizations that hold meetings for abuse women. You need to attend these meetings. Why! So you can learn what these women went through to get away. So you can learn how to survive. Lack of knowledge is no excuse for failure. Failure in your case will be the loss of your life and the lives of your children. The lives of your children depend on the decisions that you make and the decisions that you fail to make. Make the right decision. Always be prepared to run. Keep your mouth shut. No one has to know what you are thinking or doing. Do not think your mother or best girlfriend does not gossip. They do. So if you tell them of your preparation everyone will soon know of it. When you leave, leave. You do not have to tell your husband or boyfriend you are leaving. To put it brutally frank telling your husband or boyfriend that you are leaving and where you will be or are going is stupid. I can give you a list of names of women who were murdered after telegraphing they were leaving. Keep your mouth shut, plan then leave. When I say leave go to another state or country. Let him file for a divorce. Do not think you are going to be treated fairly in divorce court. Some of these judges are members of the Christian Taliban. They believe in forcing women to marry their rapist or to share custody with children of rape. Their god is the god that pays for their political campaign.

Women and children have been killed because judges would not let the women leave the state. When the women and or children are killed you can't find one judge to stand before a camera and discuss his decision. The judges hide in their chambers hoping the murders will blow over. These judges are not afraid of you when you stand in their courtroom waiting for their decision because you do not have any money or political power. This is why it would be smart to start your preparations to leave at the beginning of the relationship then you will be prepared to leave at a moment's notice. And do not go back. Do not go back for your clothes, favorite picture etc. Nothing! When you leave head for another state. A man killed his wife's entire family so he could get the opportunity to kill her at their funeral. He killed her family because he could not find her. Do not let anyone tell you that if you start making preparation to leave at the beginning of the relationship you have no faith that the relationship will succeed. That is poppycock. You prepare for war during peace time. Just in case there is a war you want to be the one with the biggest gun. And you sleep with one eye open when wed just in case your husband decides to kill you in your sleep.

Do not argue (lethal combat). Never say you are leaving. Make no move to take any of your possessions from the home when he is around. Just leave when his back is turn and never return. Do not go back for any of your possession. Just leave the state.

Did you know Sojourner Truth had a child with her when she ran from her slave owners? If Sojourner Truth could run from her slave owners surely you can run from your possessive boyfriend or husband. You just have to be smart about it: plan organize then leave. If you never have to run leave your bank account to your daughter and tell her what it is for so she can be prepared to run. If you doubt any of these suggestions then you need to read the series Do This In Remembrance of Me (<https://nisv.info>). The series chronicles the murders of

20,000 American women. Reading the series may save your life. There is much to learn.
